international – travelled from the airport, the highest-ever following the pandemic.

Overall passenger movement last November stood at 3.64 lakh people, which included 2.11 lakh domestic and 1.53 lakh international passengers. It also marked the first time the number of domestic passengers passing via the airport crossed the 2-lakh mark in a month.

Meanwhile, the addition of services to Mumbai and Delhi have brought down fares, while connectivity to foreign countries and other Indian cities has enhanced.

A source from the airport predicted a further drop in fares owing to the increase in the number of flights, making travel more affordable. "Owing to the increase in international and domestic air services, passengers have started choosing Thiruvananthapuram airport over others," said the source.

Infant undergoes liver transplant at KIMS hosp

EXPRESS NEWS SERVICE @ T'Puram

A SUCCESSFUL liver transplant was conducted on a six-monthold baby at KIMS Health Hospital. The baby is one the youngest to undergo liver transplant surgeries in Kerala, the hospital said in a statement. The liver was donated by the baby's mother.

"Fifteen days after birth, the baby developed jaundice, which gradually

worsened. By the time the baby was three months old, its health deteriorated, which required expert treat-

ment at the hospital. A detailed examination revealed biliary atresia, a condition characterised by a blockage in the ducts that carry bile from the liver to the gallbladder," the statement said.

The condition occurs when the bile ducts, either inside or outside the liver, do not develop normally. It is a rare condition that affects only one in 70,000 newborns worldwide. The first step of the treatment was the Kasai procedure.

During this surgery, the diseased gallbladder and bile ducts were removed, and a section of the baby's intestine was sewn directly to the liver, improving the flow of bile from

The procedure was led by Dr Asok Kumar G M, senior consultant, Department of Paediatric Surgery.
